Pacific Graphics 2011 The 19th Pacific Conference on Computer Graphics and Applications (Pacific Graphics 2011) will be held in Kaohsiung, Taiwan, during September 21 to 23, 2011. Pacific Graphics (PG) is an annual international conference on computer graphics and applications. As a highly successful series, Pacific Graphics provides a premium forum for researchers, developers, practitioners in the Pacific Rim and around the world to present and discuss new problems, solutions, and technologies in computer graphics and related areas.

Paper Submission Original unpublished papers are invited in all areas of computer graphics and its applications. The topics include (but are not limited to) modeling, rendering, animation, and imaging, as well as visualization, human-computer interaction, and graphics systems and applications. Any interesting new ideas related to computer graphics and applications are welcome.

Paper Publication The conference will have a full paper track as well as a short paper track. The full papers will be published in the conference proceedings which will appear as a special issue of the Computer Graphics Forum. The short papers will be made available to the participants in electronic form through EG digital library.
